

**SPONSORSHIP OF THE 10M EUROPEAN CHAMPIONSHIP IN GYŐR**

JANUARY 15, 2024

Dear National Shooting Federations,

I am pleased to inform you that we are supporting the 10m European Shooting Championships in Győr this year with the IPPONshooting Professional software. This event is an excellent opportunity to promote the sport of shooting and support talented athletes, and we are proud to be a part of it.

The IPPONshooting Professional software utilizes state-of-the-art technology to provide a virtual simulation of shooting sports. Athletes can use the software to prepare for competitions, improve their shooting skills, and enhance their mental readiness. The software displays a competition scoreboard on the computer monitor, simulating the shots of 19 virtual competitors. The goal for the athletes is to outperform the simulated competitors, which helps them with their competition preparations and increases their competitiveness.

**In the 30 days leading up to the competition, every registered shooter** can use the IPPONshooting Professional software free of charge. This program aims to optimize preparation and provides participants with the opportunity to explore the versatile features of the software.

Our support continues during the competition:

**The individual 1st place winner** in each category will receive a lifetime license for IPPONshooting Professional.

**The 2nd place winners** can use the IPPONshooting Professional software free of charge for 3 months.

**The 3rd place winners** will receive the IPPONshooting Basic software with a lifetime license.

After the competition, **the most successful nation** will be awarded a special prize: a package containing 10 licenses for the IPPONshooting Professional Club version.

We hope that this support will assist participants in achieving peak performance and contribute to the exceptional experience of the competition.

The IPPONshooting team is proud to be part of the 10m European Shooting Championships and hopes that the software can contribute to the athletes' preparation and success. Supporting and advancing the sport of shooting has always been important to us, and we are happy to assist you with any questions you may have or support you may need.

Thank you for your attention, and we wish all athletes good luck with their preparations!

Best regards,

  
Tibor Csókási
